Confirmed COVID-19 Cases and Tests Performed in MetroWest by City/Town, January 1, 2020–July 17, 2021

Selected communities from MDPH data

Data are current as of 7/22/2021; For populations <50,000, <5 cases are reported as such or suppressed for confidentiality purposes.

1 For the calculations used to delineate Grey, Green, Yellow, and Red, please see table below.

2 Number of new cases occurring over the current two-week period compared to the previous two-week period. *Please see DPH documentation for exact dates.* Higher=number of new cases in the current two-week period higher than the number of new cases during the last two-week period. Lower=number of new cases in the current two-week period lower than number of new cases during the last two-week period. No change=number of new cases in current two-week period is equal to the number of new cases during the last two-week period.

3 Change in percent positivity compared to the previous week’s report. No Change= <0.10% difference in the percent positivity. DPH calculates rates per 100,000 population using denominators estimated by the University of Massachusetts Donahue Institute using a modified Hamilton-Perry model (Strate S, et al. Small Area Population Estimates for 2011 through 2020, report, Oct 2016.)

As of 11/5/2020, the Massachusetts Department of Public Health is using the 2019 population estimates, the most current available data. Please note: Data for these tables are based on information available in the DPH surveillance database at a single point in time. Case counts for specific cities and towns change throughout the day as data cleaning occurs (removal of duplicate reports within the system) and new demographic information (assigning cases to their city or town of residence) is obtained.

Group	Population		
	Under 10K	10K-50K	Over 50K
Grey	Less than or equal to 10 total cases	Less than or equal to 10 total cases	Less than or equal to 15 total cases
Green	Less than or equal to 15 total cases	<10 avg cases/100k AND >10 total cases	<10 avg cases/100k AND >15 total cases
Yellow	Less than or equal to 25 total cases	≥10 avg cases/100k OR ≥5% pos rate	≥10 avg cases/100k OR ≥ 4% pos rate
Red	More than 25 total cases	≥10 avg cases/100k AND ≥5% pos rate	≥10 avg cases/100k AND ≥4% pos rate
